DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-2, drawn to a plant protein with repeated WD40 motifs belonging to the FZR subfamily.

Group II, claim(s) 3-7, drawn to a nucleic acid fragment, a vector, a cell, and a transgenic plant.

Group III, claim(s) 8-11, drawn to use of a protein.

Group IV, claim(s) 11, drawn to use of a nucleic acid sequence.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The protein of Group I and the nucleic acid of Group II do not have a common structure, and are therefore not linked by a special technical feature. Furthermore, since a DNA sequence encoding a plant protein with repeated WD40 motifs belonging to the FZR subfamily is obvious or anticipated over LUO et al. (Plant Molecular Biology, 01 May 1997, Vol. 34, No. 2, pages

325-330, Applicant's Search Report), a plant protein with repeated WD40 motifs belonging to the FZR subfamily does not constitute a special technical feature as defined by PCT Rule 13.2, because it does not define a contribution over the prior art. Additionally, the use of a protein of Group III or a nucleic acid sequence of Group IV is not linked to the protein of Group I and the nucleic acid of Group II by a special technical feature. The Office interprets "use" as meaning a method. The protein of Group I and the nucleic acid of Group II can be used in methods other than those claimed, such as immunoassay methods or hybridization methods.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
